Site Plan Example

Provide distance from property lines to all structures, septic systems, and wells located on the property.

Provide location of all services that will be capped. (i.e. Sanitary and Water lines)

Clearly identify which structure will be removed.

Provide location and height of temporary fences if the demolition presents a hazard to the public. If uncertain contact the building department and an inspector will determine if a fence is required. See Section 22 of the Building By-Law for more information.

Fence to have a minimum height of 1.2 meters and fully encloses the area that is being demolished as per Section 22 of Building By-Law

Will any part of the Road Way be blocked or will any portion of City property be accessed during demolition?

If yes, you will require a Right of Way Permit.

Please contact the Engineering Department at (705) 739-4210 or engineering.rowap@barrie.ca

Inspections

Article 1.3.5.3. of Division C of the Ontario Building Code requires a site inspection within 2 business days (5 days for septic related inspections) of receipt of notification.

Notification is required for all mandatory stages of construction or demolition as prescribed in the Ontario Building Code. Please call (705) 739-4231 (24/7, recording line only) or email ServiceBarrie@barrie.ca to request an inspection once the stage of construction is completed and ready to be inspected. All work must remain exposed until inspected and approved. Plans must be available on site for the inspectors. The permit holder must ensure safe access is provided for the inspector (stairs and ramps with handrails, no ladders).

Required Inspection(s):

- Site cleaning / clear of debris / backfill excavations
- Capping of water service and sanitary service (if on municipal servicing)
- Septic pump-out and filling-in of septic (if applicable)
- Commitment of General Review Report from a Professional Engineer (when required)
