1. Grade and crossfall adjustment of maintenance hole and catchbasin frames will be made using products specifically manufactured for that purpose.

2. Adjustment units must be certified to meet all pertinent OPS, CSA, ASTM and MTO-DSM lists, or other industry guidelines for materials, performance and use as applicable.

3. Adjustment units and joints will be sealed and/or parged in compliance with manufacturers specifications and guidelines.

4. Mortar is used for leveling of precast units only. The thickness of mortar will be 10mm to fill all voids created by irregularities in the precast units to ensure an even surface only.
