

## **Appendix “A” Notice of Study Commencement**

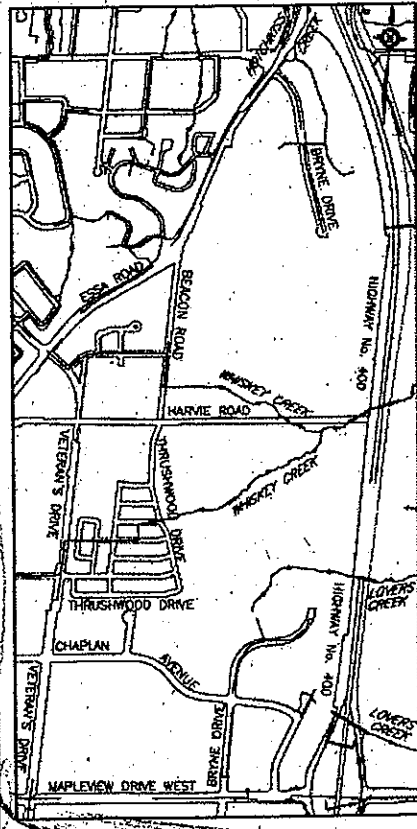

**BRYNE DRIVE**  
(Caplan Avenue to Essa Road)  
**MASTER PLAN UPDATE**  
**NOTICE OF STUDY COMMENCEMENT**

The City of Barrie is updating a portion of a Phase 1 and Phase 2 Class Environmental Assessment Master Plan undertaken by the City of Barrie in December, 2005 by examining alternative road alignment options for the proposed section of Bryne Drive, from Caplan Avenue to Essa Road. The purpose of the update is to reassess alignment options for a proposed Bryne Drive extension as a result of the need to protect lands for a potential Highway 400 interchange at Harvie Road. The study area (see Key Plan) is bisected by Harvie Road.

This Class Environmental Assessment (EA) Study will follow the planning and design process for Schedule 'B', Phases 1 and 2 projects in the form of a Master Plan (Approach # 1) as described in the Municipal Class Environmental Assessment Document (October 2000 as amended in 2007), published by the Municipal Engineer's Association. Public input and comment are invited for incorporation into the planning for any new transportation system upgrade. A future Public Information Centre (PIC) will be held to present the alternative roadway alignments. A notice will be issued prior to the PIC date.

If you have any comments or questions, or if you would like to be placed on the mailing list to receive project information, please contact the City or the consultant retained to undertake the planning process.
