Instructions for Making the Tree Wheel
1. Cut out Circle A and Circle B.

2. Place Circle A on top of Circle B and fasten the wheels together with a paper fastener through the centre.

3. Follow the instructions for using the wheel on the bottom of the next page.
Instructions

a. Rotate pointer (▲) to Scale A to identify trees with scale-like (overlapping) leaves, or rotate pointer to Scale B to identify trees with needle-like leaves.

b. Read text visible through window and move pointer to correct number.

c. Repeat step B as needed.
