Message from the Mayor

On behalf of City Council, thank you for taking this opportunity to read the City of Barrie’s inaugural ‘Culture Report Card’.

These pages are filled with demonstrations of Barrie’s many talents. Our residents choose Barrie as their place to live for many reasons – but one of the most often heard reasons, is that we always have something going on. From our many festivals and events, the variety of performances at our two theatres, to the other wide-spread talents of our arts community, there really is something for everyone. Whether you are an active participant in our Culture Community, or one who supports it by attending our many events, it’s clear to see that Arts & Culture is alive and well in our community.

Supporting culture in Barrie is very important to this Council and we know that along with a thriving Arts Community there are many economic benefits. So I encourage you to continue to support our many events and discover the depth of talent that we have right here.

I hope you take the time to read through this report and see for yourself the accomplishments we are making together.

Message from the Director of Culture

The Culture Report Card is a tool that presents an important opportunity to share with stakeholders such as you, some of the outcomes that resulted from our continued partnership. With the support of the City of Barrie’s Mayor and Council, staff has been able to steward the City’s investment in its Culture Sector to a degree of success of which we can all be proud. Our culture sector continues to increase in its vibrancy and has become a major contributor to our overall economic growth and quality of life. Artists, arts organizations, private sector businesses, cultural producers, administrators and arts managers have in many instances collaborated to form mutually beneficial partnerships. This in turn has positively affected the progress of our City and especially our City Centre. Our beautiful City of Barrie has been fortunate to be the place of choice for a growing number of individuals with talent and experience in the cultural arts. New practices and presentation centres are being introduced frequently. Innovation, creativity and talent attraction are natural by-products.

I encourage all of Barrie’s Culture Sector participants and stakeholders to join with us to ensure that research, data collection, measurement and analysis are ongoing features of our management and marketing of Barrie’s valuable cultural resources. The information garnered from such exercises will be the foundation for strategy, advocacy and sustainability of the Cultural Sector.

We are indebted to Marisha Holmberg and the Creative Communities Prosperity Fund for their role in the collection and organization of data that is the foundation of this report.

Barrie’s Public Art Policy
Over the past two years a committee of arts experts led by Carolyn Bell Farrell, the Executive Director of the MacLaren Art Centre, authored Barrie’s first public art policy. The policy was adopted by Barrie City Council on October 12, 2012. This policy will provide the framework for a public art program that will serve Barrie now and into the future.

Public art can be defined as visual art that exists in the public realm. Public Art installations can be either permanent or temporary in nature, functional or aesthetic, free standing or fully integrated into the amenity’s design.

The City of Barrie’s leadership and its Department of Culture is very excited about moving this policy forward and the opportunities that it will present to beautify and enhance our lovely city.
