# COVID-19 VIRUS – UPDATE

## BUILDING DEPARTMENT REDUCED WORK WEEK

April 27, 2020

Further to our communications in March and April regarding business continuity during the COVID-19 pandemic, please be advised that the City is implementing a reduced work week as part of a plan to address the projected revenue loss of approximately \$65M by year end.

Effective April 27<sup>th</sup>, 2020, the Building Department will not be doing inspections on Fridays until further notice. Inspection requests received on a Friday will be entered into the system the following business day and will be booked within 48 hours after that.

The management team is working to ensure minimum service levels for all Building Department activities are maintained however, there may be delays. We ask that you be patient if you do experience such delays. We are open for business and will continue to serve you all as best we can under these circumstances.

Michael Janotta, P.Eng., CBCO  
Chief Building Official
