Barrie, ON L4M 4T5
Telephone: 705-739-4220 Ext 4805 or 705-792-7920 Fax: 705-792-7921

TERMS OF AGREEMENT: HYDRANT EXTENDED USE PERMIT

Applicant:		**Company:**	
Address:		**Company Phone Number:**	
Email:		**Reason For Use:**	
24 hr Emergency Contact:		**Approximate Finish Date:**	
Start Date:		*For Water Operations Branch Staff Use Only*	
Hydrant Location:		**Key Number:**	
Hydrant Number:		**Lock Number:**	

A deposit of $2,500.00 is required prior to the metered gate valve being installed. A key will be supplied to the applicant/contractor for operation of this meter. The applicant will assume full responsibility for any damages incurred to the fire hydrant and/or metered gate valve or theft of metered gate valve by any person or persons unknown.

CONDITIONS OF SERVICE: **NOTE: Applicant/contractor is not permitted to operate the fire hydrant at any time.**

1. Water from hydrant metered gate valve will be considered non-potable and must not be used as potable water.
2. The undersigned must disclose to the Water Operations Branch (WOB) what the intended use of the water is.
3. The user will not at any time put the City of Barrie's (hereinafter referred to as the City) potable water system at risk. We reserve the right to remove the metered gate valve and refuse use at any time if used in such a manner.
4. **The City reserves the right to remove the metered gate valve if water consumption does not warrant a metered gate valve. This will be done at our discretion and the applicant's expense.**
5. The metered gate valve will be installed on requested hydrant and must remain stationary. If a different hydrant is required, arrangements must be made through the WOB to relocate the metered gate valve at the applicant's expense of the fee associated with a service call.
6. The applicant/contractor shall only operate the metered gate valve. If it is determined that the metered gate valve or hydrant have been altered, a fee of up to $300.00 and the full cost recovery for any required repairs will be applied per occurrence.
7. The applicant is responsible to pay the costs of all waters that pass through the meter. The costs are as per the current rates as established in the City's Fees By-law (as amended).
8. If the metered gate valve is found to be unlocked and unattended at any time, it will be removed at the applicant's expense.
9. **The key supplied by the City must be returned no later than 5 business days after removal of the metered gate valve or a $300.00 key replacement charge will be invoiced. No exceptions.**
10. The applicant is responsible for any damage to the hydrant and/or City equipment at full cost recovery.

Procedure:

1. The applicant agrees to **operate the metered gate valve only.** The metered gate valve shall be opened and closed slowly at all times to avoid the creation of water hammer.

The applicant shall indemnify the City against all losses, expenses, penalties and legal costs it may incur from any injuries and damages suffered by any person or entity related to any activities or omissions committed by the applicant under this permit.

Charges for the installation, testing removal and monthly fee of equipment will be at current rates outlined in the City's Fees By-law (as amended). Water shall be charged at the current maximum water rate per m^3.

We, the undersigned, hereby agree to all of the above.
