## Watering Restrictions

The City of Barrie restricts lawn watering on the following basis:

- Even numbered addresses may water only on even numbered calendar days from 6 p.m. to 8 a.m.
- Odd numbered addresses may water only on odd numbered calendar days from 6 p.m. to 8 a.m.
- Did you know your lawn requires only 2.5 cm (1 inch) of water per week including rainfall to remain healthy?

## 2022 Water & Wastewater Rates

### Effective May 1, 2022

Rate increases support the City's commitment to providing the residents of Barrie with high-quality drinking water, protecting the environment and renewing existing infrastructure. City Council continues to review the impact of rate increases annually to balance affordability for residents and financial sustainability. Municipalities are required to maintain a financially sustainable system under the Safe Water Drinking Act.

### Residential

Previous Bi-Monthly Rates			New Bi-Monthly Rates Effective May 1, 2022	
Bi-monthly Usage cubic metres	Water per m <sup>3</sup>	Wastewater per m <sup>3</sup>	Water per m <sup>3</sup>	Wastewater per m <sup>3</sup>
0 – 30	\$ 1.1062	\$ 1.5974	\$ 1.1394	\$ 1.6773
30 – 60	\$ 2.2125	\$ 2.7156	\$ 2.2789	\$ 2.8514
60 – 90	\$ 3.3187	\$ 2.7156	\$ 3.4183	\$ 2.8514
> 90	\$ 4.4250	N/A	\$ 4.5578	N/A
Fixed Charge	\$ 28.03	\$ 37.92	\$ 28.88	\$ 39.81

### Non-Residential

Previous Monthly Rates			New Monthly Rates Effective May 1, 2022	
Monthly Usage cubic metres	Water per m <sup>3</sup>	Wastewater per m <sup>3</sup>	Water per m <sup>3</sup>	Wastewater per m <sup>3</sup>
0 – 15	\$ 1.1062	\$ 1.5213	\$ 1.1394	\$ 1.5973
> 15	\$ 1.6594	\$ 2.2822	\$ 1.7092	\$ 2.3963
Water & Wastewater fixed charges (based on water service size)				
13–19 mm	\$ 14.02	\$ 18.96	\$ 14.44	\$ 19.91
25–32 mm	\$ 35.05	\$ 47.40	\$ 36.10	\$ 49.77
38 mm	\$ 70.11	\$ 94.81	\$ 72.21	\$ 99.55
50 mm	\$ 112.17	\$ 151.70	\$ 115.54	\$ 159.28
75 mm	\$ 245.37	\$ 331.82	\$ 252.73	\$ 348.41
100 mm	\$ 420.66	\$ 568.96	\$ 433.28	\$ 597.40
150 mm	\$ 876.36	\$ 1,185.05	\$ 902.65	\$ 1,244.30
200 mm	\$ 1,121.73	\$ 1,516.86	\$ 1,155.38	\$ 1,592.71
250 mm	\$ 1,612.51	\$ 2,180.49	\$ 1,660.89	\$ 2,289.51
300 mm	\$ 1,612.51	\$ 2,180.49	\$ 1,660.89	\$ 2,289.51

Fixed charges and water consumption will be prorated to the actual number of billing days.

## FAQs

### What could happen if I am late paying my water bill?

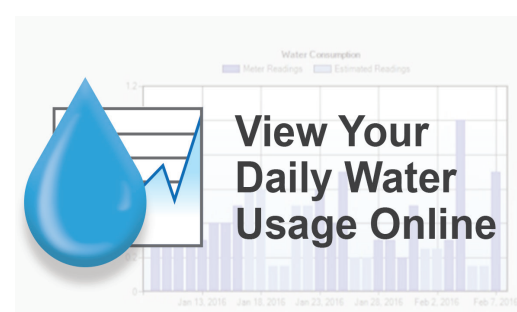

A late payment penalty of 1.25% will apply to the unpaid balance following the due date and a reminder notice will be issued. The City can elect to turn off the water supply to any property whose water/wastewater account is in arrears. Water/wastewater charges can be transferred to the property taxes for collection, with applicable transfer fees, if charges remain unpaid.

### Are there any financial assistance programs available for water/wastewater?

There is a new support program, approved by City Council in 2021 to provide financial assistance to low-income households in Barrie. For more information and criteria visit “Low-Income Household Water/Wastewater Relief Program” via [barrie.ca/WaterBilling](http://barrie.ca/WaterBilling).

### How does the City read my water meter?

The City reads water meters remotely using a Smart Point reading device installed on homes and buildings. The Smart Point relays the reading from the water meter and sends it directly to the Water Billing department.

### How can I view my water consumption and/or bill online?

Visit [barrie.ca/WaterBilling](http://barrie.ca/WaterBilling) and click on 'View Your Daily Water Usage' or 'View Your Account'. Sign in using your Account Number and Meter ID which is located on your water bill. You can also sign up for e-billing and get notified by email when your bill is due.

### Why is my bill so high?

High consumption can be the result of leaking or malfunctioning:

- Irrigation systems
- Trap seal primers
- Toilets, faucets
- Humidifiers
- Water softeners
- Outdoor taps

### How much does a dripping tap cost?

A small leak such as a constant 1/8” (3.3mm) diameter stream of water flowing down the drain can waste 372 cubic metres of water per month. This could amount to charges of more than \$1,500 in one month! Help conserve water and save money: reduce, repair and retrofit. Visit [barrie.ca/WaterServices](http://barrie.ca/WaterServices) to learn more.

### A leak in your toilet can waste water and cost you money. How do you detect a toilet leak?

It is possible to have a small leak in a toilet and not be able to “hear” it leaking.

To perform a quick leak test:

- Add coffee or food colouring to the toilet tank (back of toilet);
- Leave it for 10-15 minutes;
- Check to see if there is any colour in the toilet bowl; if there is, your toilet is leaking and needs to be repaired.

Also check the level of the water in the toilet tank. If it is set too high, water could be leaking down the over-flow tube.
