RE: **Environmental Impact Study Reliance Letter**
518 – 524 Tiffin Street
City of Barrie

The following is provided to confirm existing conditions and recommendations in the Environmental Impact Study (EIS) (April 15, 2022), EIS Addendum (September 14, 2022) and subsequent EIS Addendum (Revised April 4, 2023) remain valid and the proposed Site Plan complies with recommendations in those reports.

The City of Barrie requires the submission of an Endangered Species Letter of Clearance as part of the Site Plan Control application. The EIS and Addendum provide an assessment for Species at Risk (SAR) within the subject property and adjacent lands. The EIS and Addendum conclude that endangered or threatened species and/or their habitats are not present, which satisfies the requirements of the Endangered Species Letter of Clearance.

Please contact us if you have any questions.

Sincerely,

Kyle Fleming, BSc. (Wildlife)
Senior Ecologist
