Dear Resident,

Re: Public Information Meeting – Sidewalk Infill Program - Edgehill Drive

The City of Barrie (“City”) is finalizing the detailed design of its Sidewalk Infill Program, which includes a new sidewalk on Edgehill Drive, between Pringle Drive and Ferndale Drive North. The Sidewalk Infill Program is based on a prioritization framework centered around improving safety for road users in residential areas, which are in close proximity to schools, parks, recreation centers, and other places where people walk without sidewalks. The framework also focuses on eliminating sidewalks that end mid-block.

You are invited to attend an in-person Project Information Meeting being held on:

Wednesday, April 22nd, 2026, from 5:00 PM to 7:00 PM
at Northwest Barrie United Church (464 Ferndale Drive North, Barrie ON, L4N 7X6).

Please park in the back parking lot and enter the building through the entrance facing Horsfield Drive. The City will have signage posted to direct residents to the meeting room.

There will be no formal presentation at this meeting, and residents are encouraged to attend anytime during the meeting period.

The Project Information Meeting is intended to:

- Present the project scope, schedule, and details to the public.
- Describe the proposed construction, including traffic control measures.
- Provide an opportunity to ask questions to City representatives.
- Gather input from members of the public on the project's detailed design.
- Discuss concerns regarding these construction activities.

Project Highlights:

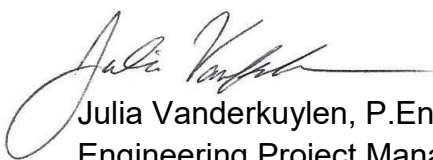

- Construction is expected to run from Summer 2026 through Winter 2026.
- New sidewalk and curb, from Pringle Drive to approximately 374 Edgehill Drive, and Jagges Drive to Ferndale Drive North.
- Change roadway from rural to urban cross section.

Drawings and materials of this project will be uploaded ahead of the meeting to the City's website under the Municipal Infrastructure Projects Page, www.barrie.ca/planning-building-infrastructure/infrastructure/infrastructure-projects/sidewalk-infill-edgehill-drive.

If you are unable to attend the meeting and have questions or concerns, a comment form can be found on the website and can be emailed to the City's Engineering Project Manager below. Please provide any comments by **May 8th, 2026**.

We appreciate the opportunity to share this design with you and discuss any questions and/or concerns you may have with the project.

Yours Truly,

Julia Vanderkuylen, P.Eng.
Engineering Project Manager
