Address:

What type of building is being demolished?

What size is the building?

Does the building have a sprinkler system or standpipe system?

Does the building have a fire alarm system?

What arrangements have been made to remove combustible\* salvage and waste from the site?

How long will combustible\* salvage and waste remain onsite before removal?

Will temporary chutes be installed on the exterior of the building?

Are these chutes non-combustible\* and at least 3m from any opening of the building face?

How many portable extinguishers will be provided onsite during demolition?

What type of portable extinguishers will be provided?

Who will be responsible for demolition onsite?

Expected date(s) for demolition?

**\* Combustible means material that can ignite and burn easily (i.e., wood, paper, plastic, fabric, etc.).**

**Non-combustible materials do not burn or ignite.**

- Burning of rubbish is not permitted within the City of Barrie.
- If demolition operations will create a fire hazard to neighbouring properties or partially occupied spaces, an hourly fire watch must be provided.
- Fire watch personnel must be equipped with a means of communication with the Fire Department.
- Firefighting access routes shall be maintained in operating condition in buildings under demolition.

**Barrie Fire Dispatch must be contacted each day prior to commencement of demolition: 705-728-3199**

Barrie Fire & Emergency Service, Fire Prevention Division, 155 Dunlop St. W., Barrie, ON, L4N 6N9
